

Install Talyx in Claude Cowork

Start here. Follow these steps in order.

You need Claude desktop with Cowork access.
Talyx is free. Your Claude subscription is separate.

1 Open the plugin menu

Open Claude and choose Cowork.
Click Customize in the left sidebar, then Plugins.

2 Add Talyx's marketplace

Under Personal plugins, click +, then Add marketplace.
Choose Add from a repository. Paste this address and confirm:

```
https://github.com/ShiftedReality12/Talyx-Plugin
```

This adds the catalog. Next, install the plugin.

3 Install the plugin

Click Browse plugins. Find talyx-skills in the talyx marketplace.
Open it and click Install.

4 Start Talyx Setup

Start a new Cowork task. Type / or click + to see installed skills.
Select talyx-setup.

5 Answer the questions

Fill in the short questions. Setup saves your settings for Talyx skills.
A worksheet is optional.

Need help?

If Personal plugins or Install is missing, ask your Claude administrator or Talyx contact for help.
