

Install Talyx in Perplexity Computer

Start here. Follow these steps in order.

You need Perplexity with access to Computer and Skills.

Talyx is free. Your Perplexity plan and usage charges are separate.

1 Save the Talyx Setup file

Save talyx-setup.zip, supplied with this guide, to your computer.
Keep it zipped. This is the file you will upload.

2 Open the Skills page

Open Perplexity and select Computer.
Go to Skills, then click Create skill.

3 Upload Talyx Setup

Choose Upload a skill. Browse to the supplied file.
Select talyx-setup.zip and wait for upload to finish.

```
talyx-setup.zip
```

Check that talyx-setup appears under My Skills.

4 Start Talyx Setup

Start a new task in Computer. Ask:
“Use the talyx-setup skill to set up Talyx for my work.”

5 Answer the questions

Fill in the short questions. Setup is intended to save settings for Talyx skills.
A worksheet is optional.

Need help?

If Skills or Upload a skill is missing, ask your Perplexity administrator or Talyx contact for help.
